

FINLAND'S NATIONAL VOCATION

- FINNAIR & EL AL

www.fin-nv.fi

FINNAIR, TOGETHER WITH EL AL, WORK FOR THE LIVING GOD.

EVERYTHING THAT GOD'S BEST PLAN FOR FINNAIR AND EL AL CONTAINS IS ALREADY A REALITY IN OUR MIDST.
IT IS IMPORTANT THAT WE BRING THE MATTER BEFORE GOD IN PRAYER, FOR THINGS TO HAPPEN, IN ALL GOD'S WILL.

FINNAIR - EL AL

FINNISH AIRLINE

In 1923, one event in Finland is the birth of the Finnish airline Aero.

Aero, as a Finnish airline, Finland also experienced World War 2, the Finnish wars.

Just as secularization began in Finland, almost immediately after God helped our country and people to survive independently from the previous wars, the same thing can be seen also happened in the Finnish airline.

Sin is like a snake, tempting but deadly.

BLUE CROSS FLAG REMOVED, "AS FINNAIR LOGO"

The Finnish aircraft company was initially Aero, later Finnair.

When the name of the Finnish airline changed from Airo to Finnair, the Finnish Blue Cross flag, which strongly speaks of Christianity, was the airline's "logo" on the side rudder of Finnair's planes.

At Finnair, we wanted to get, be able to be "eligible at all tables" and e.g. in Islamic countries, not Finnair planes with a deeply Christian symbol, "generously" accepted to operate there.

That's how "development went forward" and Finnair wanted to give up its "logo", the Blue Cross flag and the neutral "stretched f" found its way onto the side rudder of Finnair's planes to describe Finland's Finnair airline.

It happened in the 1960s and the following web link tells about it. [1.](#)

Even though Finnair ran away from God, God nevertheless uses it for his best purposes for Finland.

When God told Brother J about what happened at the beginning of Finnair, about the change of the Blue Cross flag on the side rudders of the planes, to a neutral logo, about the matter once upon a time, in the realms of spirit, the transition, from God's protection, to Satan's evil control.

God, the thing to tell Brother J happened, before God opened up to Brother J the matter of Finland's national vocation and God brought the Finnair logo thing to mind again, that it should be told, as one part, when telling about the issues of Finland's national vocation.

FINNAIR OUT OF GOD'S PROTECTION

When God told us about Finnair's previous relinquishment, about the company's Blue Cross flag logo, how the matter is going to affect the future, God's blessings and protection leaving Finnair, the matter has effects long past.

A secular person does not understand that some choices can take life away from the blessing and protection that God gives us "automatically" if we do not withdraw from them as a result of the choice.

Over the years, Finnair has had deep waves, and it has been found that the company has not had to be run down or merged with another airline. Veli J. has been following Finnair's phases with great interest, and how our times are throwing our national airline.

At that time, when God told about Finnair's bad choice, Brother J. thought that Finnair's bad choice would grow a bad crop, already much earlier, which has happened, that Finnair is still an independent, Finnish state airline.

As we can see from the Bible, with so many things told there, something has happened, very bad and negative, things go, as they have, then gone. However, God has used those, the bad things that happened to things, for God's best things to emerge and be completed, in God's best will.

Bankruptcy wouldn't be the worst for Finnair, but God forbid, that could also happen to our national airline.

In God's will, soon, Finnair and El Al will operate together, doing great things for God.

What does the Bible say about the fate of Joseph in the Old Testament, through the anger and envy of his brothers, his being enslaved in Egypt and also in captivity, under the best guidance of God, about Joseph's life.

We don't know what would have been another way for Joseph to end up as the prime minister of Egypt, for the nation of Israel to be formed in Egypt, as a result of that, but God would not have failed to take Joseph another way, to his mission in Egypt, if such was needed for the matter.

What God has said, God's best will for Finnair will be, after it moves away from God's blessings and protection, that Finnair can drift into bankruptcy, or a merger, in the face of necessity. Or there will be an understanding at Finnair, God willing, Finnair and Israel's national airline El Al will start a close relationship, either as separate companies, or by merging into a new airline.

In any case, the time will come for Finnair to experience the fact that it will lose its "own power" and, God willing, it will be brought to a situation where Finnair's continuation will bring glory to the Living God.

It may be that the flags of Israel and Finland together, on the planes of the new company, adorn the side rudders of the planes, or, God providing, that both companies are independent, operating in a solid connection, both have the flags of their countries on the side rudders of their planes, telling, God's powerful message, over the whole world.

In the new Finland, it is considered a matter of honor to promote cooperation between Finnish and Israeli airlines in everything.

FINNAIR ON YKSI SUOMEN USKOVIERUKOUSTYÖN KOHDE

How things are going with Finnair, it is God's will, to have an opportunity for the believers in Finland to go to prayer work on the matter, on the whole issue of Finnair, so that understanding can be found there, already now, return the Finnish Blue Flag as the company's logo on the side rudder of the airplanes.

It is best to also take the matter of Finnair to the all-knowing God, and God will not fail in that matter, that's for sure.

When Finland has risen to serve God, then Finnair too will find our country's Blue Cross flag to bump the side rudders of its planes, and this will also bring God's blessing and protection upon the airline.

How is it going, will Finnair make it a practice, similarly to what EL AL does, to sanctify a public holiday out of the week, so that the company's planes don't fly? It may be that Finnair will be on the ground with its planes on Sundays.

Humanly, we don't want difficulties for us, or e.g. for Finnair, but it is true that often God takes things through difficulties, to the end result he wants. It is always best to wish for God's best, perfect will for events, including for Finnair, even if the matter involves Finnair's bankruptcy.

God knows best and will, even in the future, use both Finnair and El Al, greatly, with the power of God's works to advance, throughout the whole earth.

We, the people of faith, don't need to know, beyond the beginning, what God has prepared for Finnair and El Al, but to go before God, let the matter happen, the full will of God, in the full glory of God.

FINNAIR AND EL AL, TAKE RUSSIAN JEWS TO ISRAEL

Above, on **the Completion of the North** page, it has been told how Finland, along with other Nordic countries, operated Russia, the Jews still there, to their homeland Israel.

At that time, there was still no explanation of what, the best thing, God has in store for Finland and Israel, for their airlines to operate together, also for the return of Jews to Israel.

It is no small matter that God leads, with Finland also strongly involved, in the case of the Jews moving from Russia, they move to their homeland in Israel.

It is written in the Bible, that those who were forced into the disintegration of Israel, will return once, back from the four directions of the air, and in this work, carrying it out, is our national airline Finnair, God willing.

As Moses led the people of Israel out of Egypt, now the tribes of Israel will return from exile, back to Israel, at the end of time, the Bible says.

At this point, God wants a common prayer model to emerge, on the basis of which true believers in Finland can go before God regarding Finnair and El Al.

Almighty Living God, I come before you through the blood sacrifice of Jesus and His resurrection, in the matter that Finnair, the Finnish airline, has renounced the protection and protection of God, because of its rational, unsustainable pursuit of interests, by giving up the Blue Cross flag, in its planes and has thus come under curses and other evil.

I come before you, Living God, to the hole in the wall near Finnair, so that it may receive grace, to come in the way of your will, O Living God, now, before turning to God as a nation of Finland. This way, it avoids a possible theft of funds.

Or, if things go well, that the truth will be found in Finnair, only after Finland comes to the truth and Finnair somehow goes bad, keep God, even then, in control of things and turn things around for the best,

God, get all the glory and praise from things. Thus, in full assurance of faith,

I ask and pray for the events of your best, perfect will for Finnair and El Al, O Living God.

Amen.

*Now, Finland,
which has
matured, is
about to be
reformed,
seeing God's
possibilities for
Finnair.*

*When the
believers in
Finland pray for
their own airline,
it also blesses
Israel, in God's
best will.*

Go next, let's continue to discover what God has, more, reserved things, together, for Finland and Israel.
Next, continue to the **Disaster Advances** page.

Thank you.

**GOD IS NOT BOUND BY PEOPLE'S FAILURES,
GOD TURNS THEM INTO VICTORIES IN OUR MIDST.**
